Big City Tech, Small Town Touch

Since 1977, AE Touch Technologies has serviced and supplied technology products for both enterprise and education institutions. Each provided solution has emphasized efficiency, reliability, and ease-of-use. From interactive flat panels and web cameras, to video walls and safety solutions, we proudly stand by our products and support. Now in 17 states across the nation, our minority-owned business continues to focus and exceed on reliable products and unrivaled customer support. With our innovative technology products and services, we're deeply honored to make a difference in your community.

**We are AE Touch Technologies —
“Big City Tech, Small Town Touch”**

Better Productivity

This is our AETouch Series

The “AETouch” is our own brand of interactive flat panels designed with education and enterprise in mind. Our panel sizes range from 43” to 100”.

Interactive

Our 4k anti-reflection panel provides you with 20-points of touch along with palm rejection technology. Navigate freely with our included pen or the touch of your finger.

Flexible

The AETouch is compatible with all of your current hardware: PCs, Macs, & Chromebooks. And also compatible with your current software services from Microsoft, Google, and more.

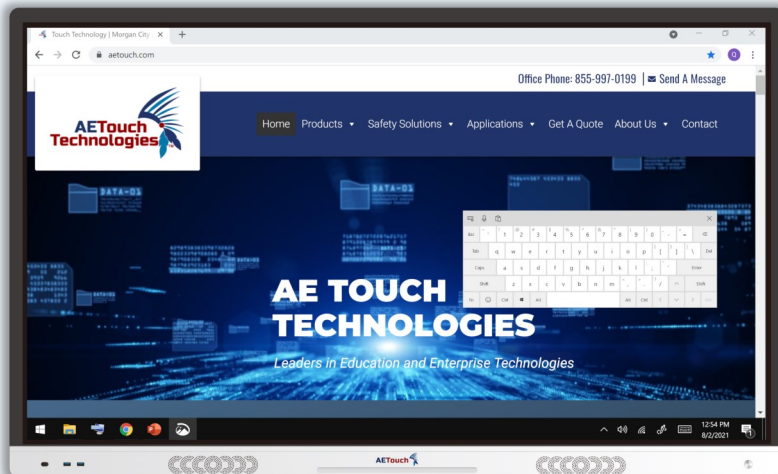

Engaging

The built-in Android OS provides you with all of the apps you need, plus some added extras from the AETouch Team. Perfect for intuitive & touch-based learning.

Better Workflow

Full PC Experience

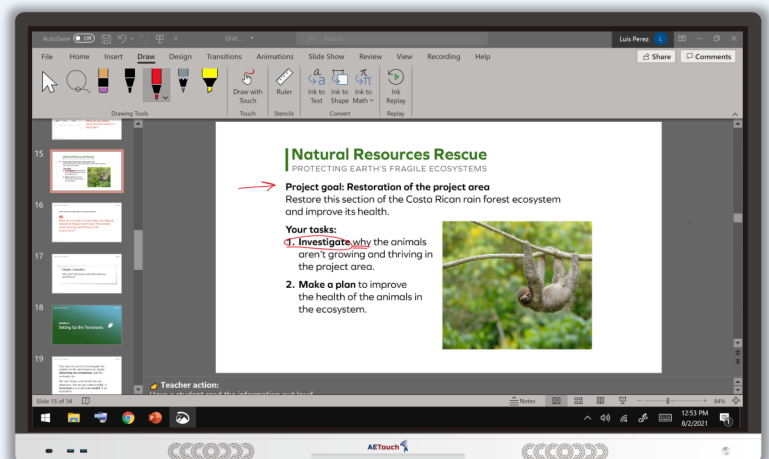

Use the included operating system to collaborate with your team or use our optional PC module to transform your panel into an interactive PC experience.

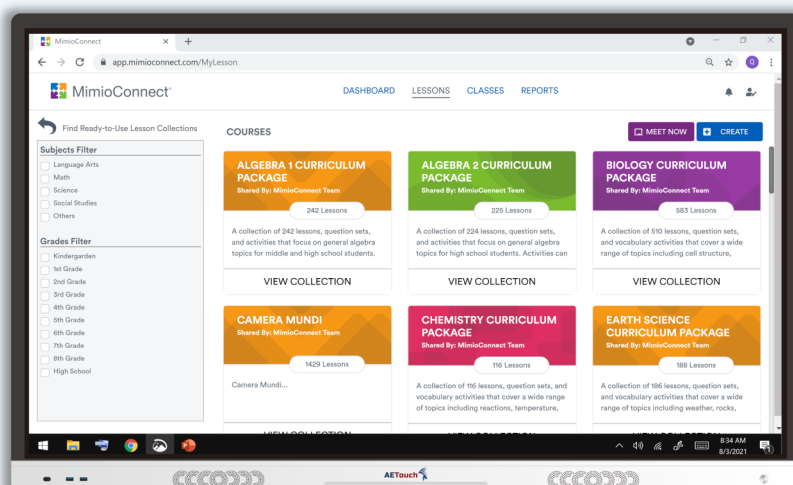

Visit any website to interact with resources, materials, files, and videos! Plug in an external drive or connect to your cloud service provider to easily use your existing documents.

Annotate over your existing content easily and efficiently! The Windows platform will be familiar to you right out of the box.

Take full advantage of our included AETouch interactive panel solutions: Oktopus & Mimio Connect! Both solutions offer collaboration tools for classrooms and conference rooms.

Interactive Cloud Solution

AETouch + Mimio Connect

What is Mimio Connect?

AETouch Technologies has partnered with Qwizdom to bring you MimioConnect, our online learning platform. Engage students, enrich lessons, and enhance the learning process for the classroom. Mimio Connect makes it easier for teachers to teach, and students to learn.

Build Lessons

Build interactive lessons using your materials including PPTs, PDFs, Google Slides and more. Add questions, instant polling, and collaborate using annotation tools.

Premade Lessons

Add to your materials. Browse the thousands of premade, lessons and assessments available to complement required curriculum.

Reuse Lessons

Use existing lessons created in SMART Notebook, ActivInspire, and Adobe Reader. Simply open these resources without time consuming conversions.

Compatibility

Interactive Software Solution

AETouch + Oktopus

What is Oktopus?

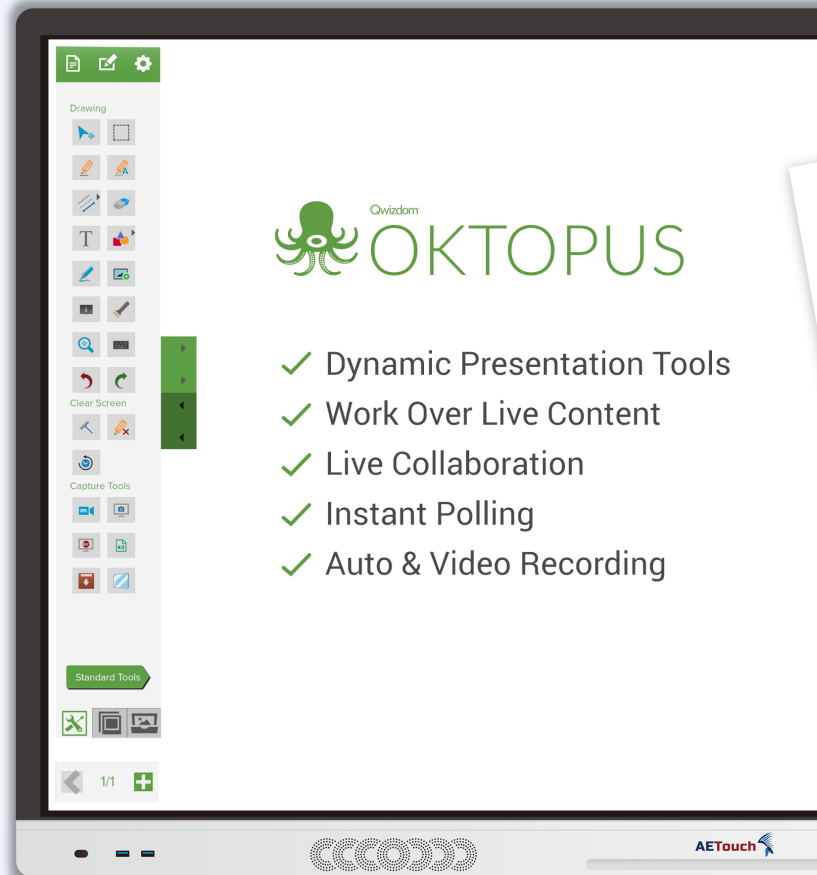

Oktopus is an interactive presentation and collaboration software designed for use with our AE Touch Panels. Our software solution comes with many tools for presentations, conferences, trainings, and learning environments.

**Import and use
existing lessons**

**Annotate over
any application**

**Teach with subject
specific tools**

**Each purchase of our AE
Touch interactive panel
comes bundled with an 
Oktopus license code!**

Professional Development!

All of the tools we provide are accompanied by professional development options! Included with each Oktopus license are 4.5 hours of self-paced online training. Feel free to schedule a professional development training with us. AETouch Technologies will be glad to service you and your team!

Stands & Mounts

Find the Right Fit

We offer various stand and mounting options for your classroom. We've engineered our stand from the ground up to allow for portability and unique learning opportunities with the "AETouch". Whether you need a mobile stand, motorized stand, or wall mount, we have you covered.

Fixed Mobile Stand

Motorized Stand

Wall Mount

Greater Classroom Engagement

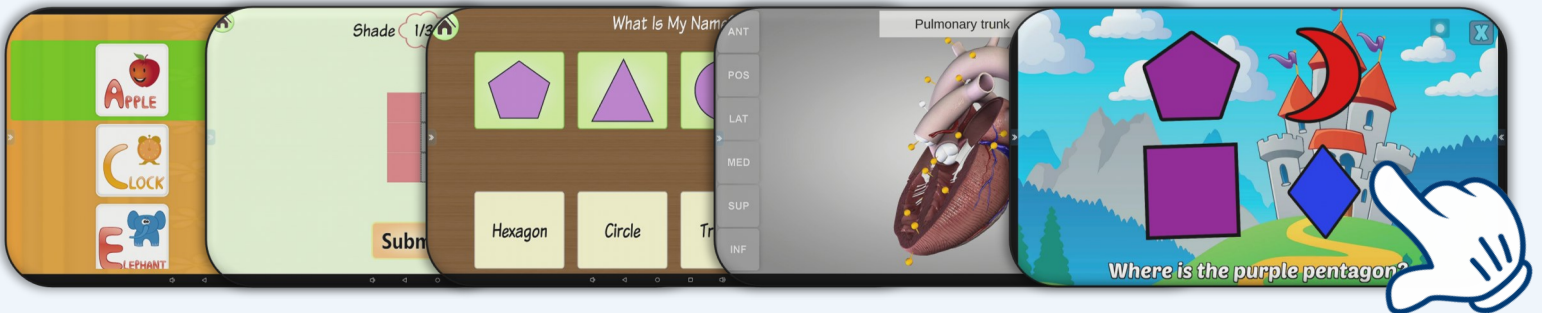

This is our AE AppBox

**AETouch
Technologies**

Touch-Based Interaction

Immerse your classroom with intuitive and touch-based learning apps. We've hand selected 30 educational apps to start you off — learning games focused on reading, spelling, math, phonics, and more.

Apps, Apps, & More Apps

Find the app you need with access to the available app store! Download your favorite apps or discover new ways to interact with your audience. The AE AppBox is the perfect tool for classroom engagement, participation, and interaction.

Digital Video Wall Solutions

LCD Video Wall

AETouch Technologies is now offering a new selection of product: digital video wall solutions. Our solutions add a new dynamic to existing rooms with stunning clarity and bright images.

High Visibility

Our dynamic digital video walls capture your audience's attention and transforms any room into a visual spectacle. With a narrow bezel-to-bezel setup, our LCD panels produce stunning high-contrast and bright color images for long-lasting performance.

High Flexibility

Display your preferred digital signage content on our LCD panels. Integrate your customized slideshows or presentations to make the most out of your LCD display.

Perfect for meeting rooms, educational facilities, control rooms, retail spaces, and more.

Sizes range from 138" to 235"

Digital Video Wall Solutions

Contact Us Today

AE Thermal Checkpoint

AETouch Technologies offers various safety response products. Our thermal checkpoints provide contactless and automated scanning.

● Smart

The built-in AI algorithm allows you to actively measure up to 30 temperatures at once. Ideal for contactless scanning in strategic locations such as long hallways or busy entrances.

● Accurate

Both thermal & optical sensors provide you with accurate readings shown on the included laptop. The process requires very little management and intervention. Once set up by our team, you are ready to go.

● Portable

Designed for portability with our powder coated carbon steel stand & PC combo. We've made mobility and ease-of-use the priority for your safety solution needs.

AE Temperature Kiosks

Stay Safe

Keep your visitors and staff safe with our AE Temperature Sensing Kiosks products. The contactless scanner will detect any temperature anomalies within seconds. The kiosk also includes a built-in hand sanitizer and tissue station for proactive safety measures.

Touch the Difference

We've built our temperature sensing kiosk from the ground up. We've included a 32" touch display for digital signage, custom advertising, QR display, and specialized surveys.

Ideal for industries applications such as retail stores, hotels, churches, schools, libraries, offices, and more!

AE Air Sterilizer

Clean Air in Your Facilities

AE Touch Technologies has your sterilization & disinfection needs covered. The AE Air Sterilizer seamlessly integrates into your home, office, business, or school. Simply connect and navigate the LED display to your liking.

How does it work?

The internal fan pulls the air flow to pass through five different sterilization modules:

- The primary carbon filter first catches heavier particles
- From there, the air flows through the double high voltage electrostatic module.

This allows for the ions to be charged in the air flow.

- Third and fourth is the disinfection core module and ozone decomposition filter. This process uses UV light to disable any air pathogens.
- Finally, the air flow passes through the photocatalytic filter, killing any remaining bacteria off.

Effective against airborne viruses, flu, mold, bacteria, and PM2.5. Available in standing and wall-mounted options.

AE Disinfection Robot

Automized Sanitation

This is our latest innovation in safety technology:
The AE Sanitation Robot.

Our robot is equipped with a fully functional 7" touch screen for navigation and diagnostics. The LIDAR equipped sensors can disinfect your facility once its been configured to your specifications.

Safe on clinical surfaces such as acrylic, aluminum, brass, copper, stainless steel, chrome, plastics, and more. It cleans better than high alcohol formulas (55%) and won't affix to blood and soil surfaces.

Webcams for Home or Office

AE HD Webcam

The AE HD Webcam features full HD resolution with a built-in microphone. Ideal for virtual meetings and remote learning. Compatible with PC/Mac/Chromebooks, along with our very own interactive flat panel displays.

AE 4k Webcam

The AE 4k Webcam features electronic pan, tilt, and zoom capabilities with the included remote controller. The built-in mic allows for a range of up to 25 ft. With a video FOV of 130 degrees, this webcam is designed for entire classrooms or conference rooms.

AE 360 Webcam

The AE 360 Webcam is our rotatable model used for large conference and classrooms. Capture the entirety of the room with the included remote. Connect the included speaker for a robust collaboration experience.

Webcams for Home or Office

AE Motion Webcam

The AE Motion Webcam uses auto motion tracking to track your movements for online meetings or remote learning. Attach it to the included tripod and experience intelligent tracking at a full 270 degrees.

AE Voice Tracking Webcam

The AE Voice Tracking Webcam integrates 4 built-in digital microphones for voice tracking capabilities. Automatically track voices from up to 30 ft. away. This PTZ camera is perfectly suited for large classrooms or auditoriums.

AE DocuCam

The AE DocuCam is the perfect tool for education. Project images in crystal-clear HD resolution. Compact and easy to setup, the camera will work with a variety of software and applications for PC/Mac/Chromebooks. HDMI cable also included for a PC free experience.

**All of our PC accessories are plug & play!
Connect via the included USB cable & you are ready to go!**
